**Empowering Language
Education With Robots**

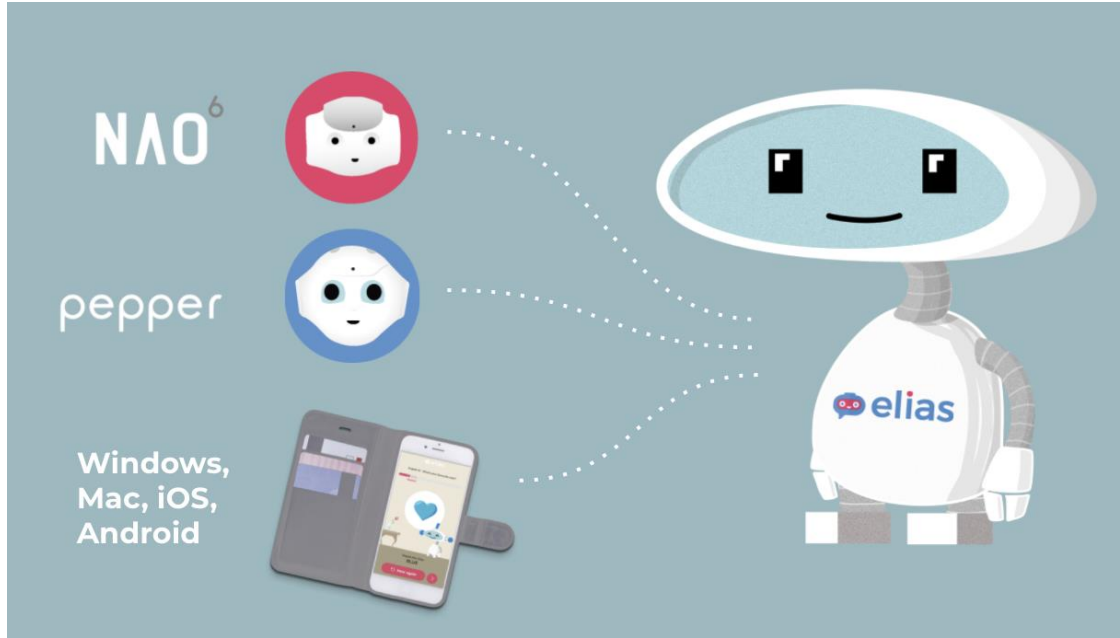

The only way to learn
how to speak is
to speak

Solution

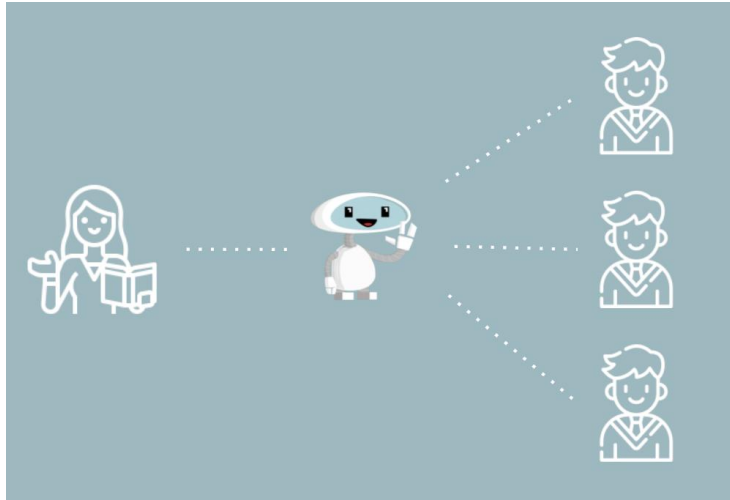

Elias Robot helps to languages with the help of a friendly robot!

Support for
multiple voice-
enabled devices:
smartphones,
tablets, laptops,
humanoid robots

You can't clone teachers,
but you can clone their expertise!

Benefits

Fun and engagement
Learn while having fun

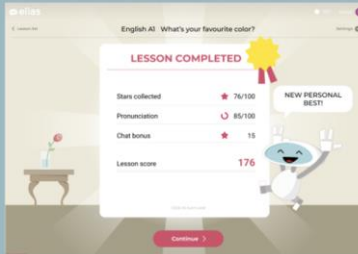

Emotional safety
No fear of mistakes

Accessibility

Practice anywhere, anytime with an easy and simple tool

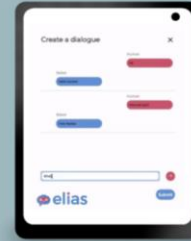

Learning analytics

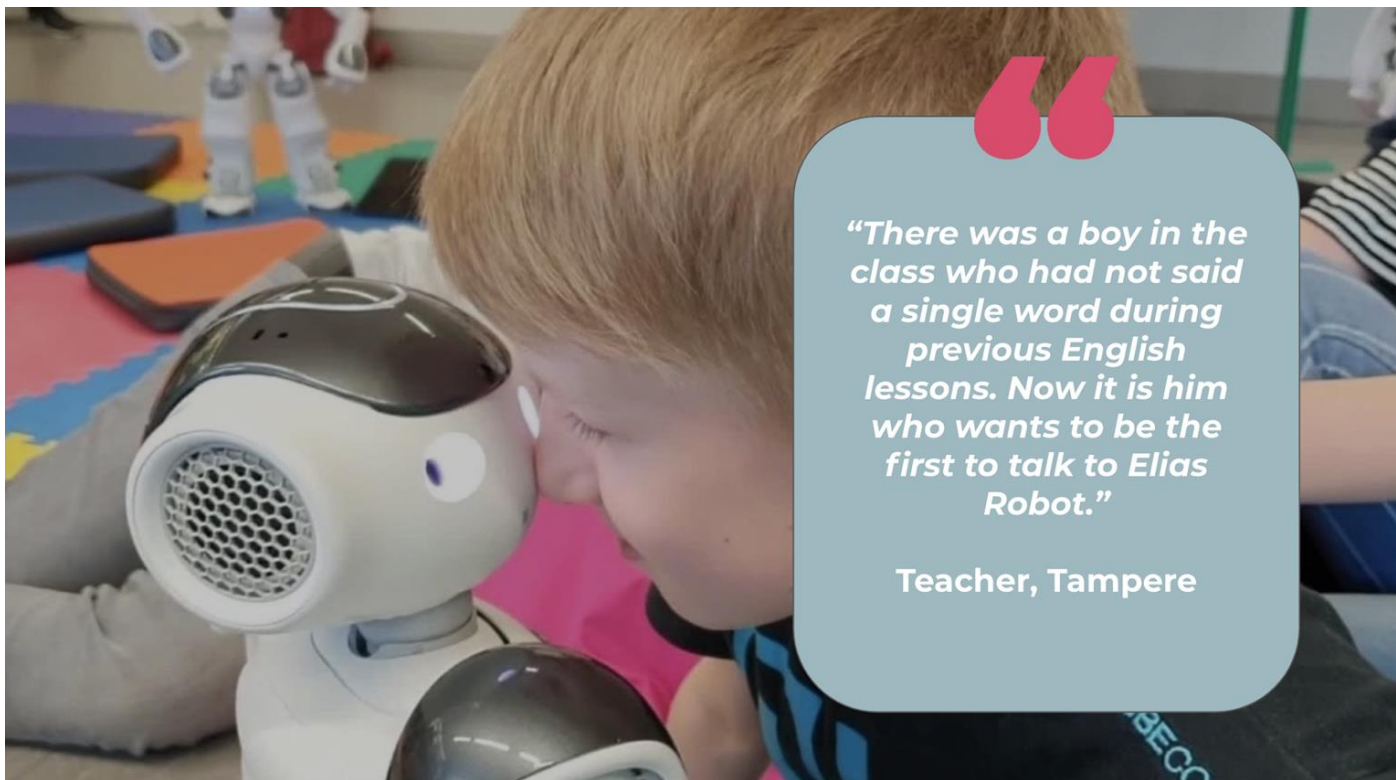

Data-driven pedagogical decisions

Interaction
Learn by speaking

Empowering teachers
Create interactive lessons easily

“There was a boy in the class who had not said a single word during previous English lessons. Now it is him who wants to be the first to talk to Elias Robot.”

Teacher, Tampere

Elias robot is a first of his kind combining robotics and AI in learning languages.

Classroom experiences...

Evidence-based approach

- Increases positive feelings and motivation to learn
- Makes the learning atmosphere relaxed and focused
- Initiates collaboration and make children encourage each other
- Increases foreign language speaking in the classroom

(University of Tampere 2019: Learning and teaching experiences with a persuasive social robot in primary school)
