

Top Tips for

TEACHERS

- 1 Cultivate a positive environment for students to ask **questions**.
- 2 Ask **'What next?'** to help students think through their ideas and how to achieve them.
- 3 Encourage **honesty** around skills, strengths and growth areas.
- 4 Identify and nurture students' **natural skills** and **strengths**.
- 5 Use personality profile tests to help understand skill sets.
- 6 Always proofread students' personal statements or CVs for **basic spelling** and **grammar**.
- 7 Communicate that all experiences, positive and negative, help students discover what they do or don't **enjoy**.
- 8 Help students build up **employability skills** outside of work experience. For example, time management through a study plan, resilience when handling setbacks or budgeting from how they manage spending.
- 9 Normalise the idea that learning is an **ongoing journey**.

- OneStream Software provides a market-leading Intelligent Finance Platform that **reduces the complexity of financial operations.**
